## Acknowledgements

The North Carolina Department of Public Instruction (NCDPI) would like to extend a warm thank you to all the principals and health education teachers that participated in the 2004 North Carolina School Health Education Profile Surveys. The time and dedication it took to complete the survey in such a timely manner is greatly appreciated. Without your responses, statewide monitoring of school health curricula, professional development needs and health policies would not be possible.

The 2004 North Carolina School Health Education Profile Surveys were conducted by the NCDPI, Healthy Schools Initiative in collaboration with the North Carolina Department of Health and Human Services (NCDHHS). Numerous staff members from both agencies contributed to the survey design and the ongoing success of the initiative.

Donna Breitenstein, Director of the North Carolina Comprehensive School Health Training Center at Appalachian State University, Melanie Greene, Associate Professor of Education at Appalachian State University, Sherry Lehman, HIV/AIDS Policies and Programs Consultant at NCDPI, Sarah Langer, Evaluation and Abstinence Consultant at NCDPI, and Michael Sanderson, Senior Advisor for Healthy Schools at NCDHHS oversaw the survey development and sampling process and coordinated all data collection and verification. Melanie Greene was the primary for interpreting survey results, creating charts and authoring the report. Sherry Lehman and Sarah Langer assisted with this process.

## Introduction

During the spring semester of 2004 the North Carolina Department of Public Instruction (NCDPI), Healthy Schools Initiative in collaboration with the North Carolina Department of Health and Human Services (NCDHHS) contracted with the North Carolina Comprehensive School Health Training Center, Department of Curriculum and Instruction at Appalachian State University to survey principals and lead health education teachers in randomly selected schools containing grades six through twelve regarding the nature of health education programs in their schools. Two survey instruments were mailed to each principal and teacher in each selected school. The School Health Education Profile Survey - Part I was developed by the Centers for Disease Control and Prevention (CDC), Division of Adolescent and School Health in collaboration with representatives of 75 state, local, and territorial departments of education. This instrument was specifically designed to monitor the status of school health and physical education, including education to prevent HIV infection, tobacco use, STDs, and other important health risks at the middle and high school levels. A work group consisting of members from NCDPI, NCDHHS, the director of the North Carolina School Health Training Center, and a faculty member from the Department of Curriculum and Instruction at Appalachian State University developed Part II a supplemental instrument for both principals and teachers. These questionnaires provided a more in-depth examination of several areas addressed on the School Health Education Profile Survey

Sampling and Survey Procedures
All regular secondary public schools having at least one of the grades six through twelve were included in the sampling frame. Systematic equal probability sampling with a random start was used to select schools for this survey. Schools were sorted by estimated enrollment in the target grades with school grade level (middle schools, other) before sampling. This procedure resulted in the selection of 402 schools. The initial packet, mailed directly to the principals, contained two surveys (one for the principal and one for the lead health education teacher), stamped return envelopes for each participant, and an addressed, stamped post card to return, indicating the lead health educator in the school. Additionally, a letter explaining the survey procedure was included in the packet.

Implementation of the School Health Education Profile surveys occurred between January and May of 2004. To initiate this research project, the

Superintendent of North Carolina Department of Public Instruction prepared a letter to inform the superintendents of all school districts with selected schools. This letter was mailed in January of 2004. The initial mailing of the survey instruments occurred in February of 2004. Follow-up reminder postcards were sent to non-respondents two weeks later. A second mailing of the survey instruments occurred early in March. Telephone reminders were conducted between April and May of 2004. When 70\% of surveys had been received, the data collection ended.

A total of 284 principal questionnaires were returned yielding a $70.32 \%$ response rate. A total of 281 surveys were complete and eligible for analysis. Data was analyzed from 158 middle schools, 111 high schools, and 12 junior/senior combined schools. Of the 402 sampled teachers, 280 ( $70.18 \%$ ) surveys were returned representing 108 high schools, 162 middle schools, and 10 junior/senior combined schools. In 2002, 72\% of sampled principals and $58 \%$ of sampled teachers returned surveys. Data from the Centers for Disease Control's School Health Education Profile Instrument (Part I) was processed by WESTAT according to the CDC contract protocol. Data from the locally generated supplemental instruments (Part II) was processed by the senior researcher in the Office of Institutional Research, Assessment, and Planning at Appalachian State University and then combined with the data from Part I. Reporting of data occurs in valid percents. When frequency counts were too small, results from the junior/senior combined schools were not reported. The findings provide an important description of school health education for schools North Carolina.

$\square$

## Demographics

Schools selected to participate in this study included at least one of the following grades, six through twelve. If none of the grades were included in the school, the respondent was instructed to return the survey to ASU without completing the questionnaire.

## Question 1: Are any of the following grades taught in this school?

Table 1. Grades taught in the school.

|  | High School <br> \% of <br> Response <br> Yes | Middle School <br> \% of response <br> Yes | Junior Senior <br> Combined \% <br> response rate <br> yes | Overall <br> response rate |
| :--- | :--- | :--- | :--- | :--- | :--- |
| 6rade | 0 | 95 | 0 | 67 |
| 6th | 0 | 99 | 0 | 70 |
| 8th | 0 | 98 | 0 | 70 |
| 9th | 97 | 2 | 0 | 50 |
| 10th | 99 | 0 | 0 | 51 |
| 11th | 99 | 0 | 0 | 50 |
| 12th | 98 | 0 | 0 | 50 |

Of the middle schools participating in the study, $95 \%$ contain a sixth grade, $99 \%$ contain a seventh grade, and $98 \%$ contain an eighth grade. At the secondary level, 97\% report including ninth grade and approximately 99\% include tenth to twelfth grades. No participants report working in a 6 through 12 school, yet $2 \%$ did report not including the ninth grade in a secondary school.

## Coordinated School Health

Coordinated school health is a way of doing business. By coordinating local student health initiatives, goals to improve student health are met with more efficiency and with fewer resources. This type of coordination can happen at the school level or district level with guidelines from a School Health Advisory Council (SHAC). A SHAC can assess current school health needs and unifying resources to address them. This may include a school policy change or the implementation of a new program.

Question 2: Does this school have a school health committee or health advisory group?

Table 2. Health advisory committee

|  | Response | Percent |
| :--- | ---: | ---: |
| Yes | 71 | 25.9 |
| No | 203 | 74.1 |
| Total | 274 | 100.0 |

A health committee or advisory group is present in $25.9 \%$ of all schools.

Question 3: Which of the following are included as members on your school health committee /advisory group?

Table 3. Health educator serves as a member of the health committee/advisory group.

|  | Response | Percent |
| :--- | ---: | ---: |
| Yes | 66 | 88.0 |
| No | 9 | 12.0 |
| Total | 75 | 100.0 |

Table 4. School nurse serves as a member of the health committee/advisory group.

|  | Response | Percent |

Table 15. Others serve as a member of the health committee/advisory group.

|  | Response | Percent |
| :--- | ---: | ---: |
| Yes | 21 | 38.2 |
| No | 34 | 61.8 |
| Total | 55 | 100.0 |

Of those principals who report having an advisory committee or group, the majority consist of the health education teacher ( $88 \%$ ), a school administrator (83.1\%), the nurse (82.4\%), and a physical education teacher (79.7\%) respectively. Schools are less likely to have a representative from the business sector (20\%) serving on their school health committee or health advisory group.

## Question 4. Has this school's health committee or health advisory group influenced school policy or programs in the last year?

Table 16. Committees that have influenced policy or programs.

|  | Response | Percent |
| :--- | ---: | ---: |
| Yes | 51 | 68.0 |
| No | 24 | 32.0 |
| Total | 75 | 100.0 |

Sixty-eight percent of those schools with a health committee or advisory group report an impact on school policy or programs within the past year.

## Question 5. Does this school have an individual assigned to coordinate all school health activities?

Table 17. Schools with coordinators for all school activities.

|  | Response | Percent |
| :--- | ---: | ---: |
| Yes | 182 | 69.7 |
| No | 79 | 30.3 |
| Total | 261 | 100.0 |

The majority (69.7) of all principals report that there is an individual assigned to coordinate all school health activities.

## Question 6. Does this school have a staff wellness program?

Table 18. School has a wellness program.

|  | Response | Percent |
| :--- | ---: | ---: |
| Yes | 62 | 23.8 |
| No | 198 | 76.2 |
| Total | 260 | 100.0 |

A total of $23.8 \%$ of the principals report having a school wellness program in operation in their school.

Question 7. Does this school district have a school health advisory council?

Table 19. School district has a school health advisory council.

| Response | Response | Percent |
| :--- | ---: | ---: |
| Yes | 171 | 64.5 |
| No | 94 | 35.5 |
| Total | 265 | 100.0 |

Principals report that 64.5\% of the schools have a health advisory council at the district level.

Question 8. Has this school district's school health advisory council influenced school policy or programs in the last year?

Table 20. District level school advisory council influenced school policy or programs.

|  | Response | Percent |
| :--- | ---: | ---: |
| Yes | 147 | 80.3 |
| No | 36 | 19.7 |
| Total | 183 | 100.0 |

Eighty percent of principals report that school health advisory councils have influenced school policy or programs in the past school year at the district level.

O

## Physical Education

Physical education is defined as instruction that helps students develop the knowledge, attitudes, motor skills, behavioral skills, and confidence needed to adopt and to maintain a physically active lifestyle. With the current epidemic of diabetes and obesity, physical education policies and practices can help ensure physically active students and physically active adults.

Question 9. Is physical education required for students in any of grades 6 through 12 in this school?

Table 21. Schools that require physical education.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High School | 111 | 110 | 99 |
| Middle School | 156 | 151 | 97 |
| Junior/Senior Combined |  |  |  |
| Total | 279 | 273 | 98 |

Physical education is required at $97 \%$ of middle schools and $99 \%$ of high schools.

Question 10. How many required physical education courses do students take in grades 6 through 12 in this school?

Table 22. No physical education courses taken in grades 6 through 12.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High School | 107 | 1 | 1 |
| Middle School | 150 | 3 | 2 |
| Junior/Senior Combined | 11 | 0 | 0 |
| Total | 268 | 4 | 2 |

Table 23. One physical education course is taken in grades 6 through 12.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High School | 107 | 96 | 89 |
| Middle School | 150 | 22 | 15 |
| Junior/Senior Combined | 11 | 1 | 7 |
| Total | 268 | 119 | 43 |

Table 24. Two to three physical education courses are taken in grades 6 through 12.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High School | 107 | 8 | 8 |
| Middle School | 150 | 109 | 72 |
| Junior/Senior Combined | 11 | 3 | 26 |
| Total | 268 | 120 | 46 |

Table 25. Four to five physical education courses are taken in grades 6 through 12.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High School | 107 | 2 | 2 |
| Middle School | 150 | 12 | 8 |
| Junior/Senior Combined | 11 | 7 | 66 |
| Total | 268 | 21 | 8 |

Table 26. Six to seven physical education courses are taken in grades 6 through 12.

|  | Number | Response | Percent |
| :--- | ---: | :--- | :--- |
| High School | 107 | 0 | 0 |
| Middle School | 150 | 4 | 2 |
| Junior/Senior Combined | 11 | 0 | 0 |
| Total | 268 | 4 | 1 |

Table 27. Eight or more physical education courses are taken in grades 6 through 12.

|  | Number | Response | Percent |
| :--- | ---: | :--- | :--- |
| High School | 107 | 0 | 0 |
| Middle School | 150 | 0 | 0 |
| Junior/Senior Combined | 11 | 0 | 0 |
| Total | 268 | 0 | 0 |

Between $1 \%$ and $2 \%$ of students do not participate in any physical education courses while 89\% of high school students take one course and 72\% of middle school students take two to three courses. Either $2 \%$ or less students participate in six or more physical education courses.

Question 11. Is a required physical education course taught in each of the following grades in this school?

Table 28. Physical education courses taught in sixth grade.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High School | 139 | 137 | 99 |
| Middle School |  |  |  |
| Junior/Senior Combined | 149 | 145 | 97 |
| Total |  |  | 9 |

Table 29. Physical education courses taught in seventh grade.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High School |  |  |  |
| Middle School | 145 | 143 | 99 |
| Junior/Senior Combined | 11 | 9 | 81 |
| Total | 158 | 153 | 97 |

Table 30. Physical education courses taught in eighth grade.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High School | 144 | 140 | 98 |
| Middle School | 11 | 9 | 81 |
| Junior/Senior Combined | 158 | 151 | 96 |
| Total |  |  |  |

Table 31. Physical education courses taught in ninth grade.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High School | 102 | 101 | 99 |
| Middle School |  |  |  |
| Junior/Senior Combined | 10 | 10 | 100 |
| Total | 115 | 114 | 99 |

Table 32. Physical education courses taught in tenth grade.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High School | 94 | 16 | 18 |
| Middle School |  |  |  |
| Junior/Senior Combined | 102 | 17 | 17 |
| Total |  |  |  |

Table 33. Physical education courses taught in eleventh grade.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High School | 91 | 12 | 13 |
| Middle School |  |  |  |
| Junior/Senior Combined |  |  |  |
| Total | 99 | 12 | 12 |

Table 34. Physical education courses taught in twelfth grade.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High School | 89 | 11 | 12 |
| Middle School |  |  |  |
| Junior/Senior Combined |  |  |  |
| Total | 97 | 11 | 11 |

Ninety-eight percent or more of principals report physical education is taught at their schools in grades six through nine. At the tenth grade level, $18 \%$ of those principals report that physical education is taught. In grades eleven through twelve, the percentage drops to $13 \%$.

Question 12. Can students can be exempt from taking a required physical education course for any of the following reasons?

Table 35. Students can be exempt from a required physical education course due to enrollment in other courses.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High School | 106 | 0 | 0 |
| Middle School | 144 | 16 | 11 |
| Junior/Senior Combined | 11 | 0 | 0 |
| Total | 261 | 16 | 6 |

Table 36. Students can be exempt from a required physical education course due to participation in school sports.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High School | 105 | 0 | 0 |
| Middle School | 140 | 2 | 1 |
| Junior/Senior Combined | 11 | 0 | 0 |
| Total | 256 | 2 | 1 |

Table 37. Students can be exempt from a required physical education course due to participation in other school activities.

|  | Number | Response | Percent |

| Total | 256 | 13 | 5 |

Table 38. Students can be exempt from a required physical education course due to participation in community sports.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High School | 105 | 0 | 0 |
| Middle School | 140 | 2 | 1 |
| Junior/Senior Combined | 11 | 0 | 0 |
| Total | 256 | 2 | 1 |

No high school students are exempt from physical education due to enrollment in other courses or participation in sports programs and only 11\% of middle school students were allowed to do so if enrolled in other courses. Seven percent of middle school students can be exempt from a required physical education course if they are participating in other school activities.

The following are additional reasons students can be exempt from required physical education courses.

Table 39. Students can be exempt from a physical education course due to religious reasons.

|  | Response | Percent |
| :--- | ---: | ---: |
| Yes | 113 | 42.2 |
| No | 115 | 57.8 |
| Total | 268 | 100.0 |

Table 40. Students can be exempt from a physical education course due to a permanent physical disability.

|  | Response | Percent |
| :--- | ---: | ---: |
| Yes | 178 | 65.7 |
| No | 93 | 34.3 |
| Total | 271 | 100.0 |

Table 41. Students can be exempt from a physical education course due to asthma.

|  | Response | Percent |
| :--- | ---: | ---: |
| Yes | 104 | 38.7 |
| No | 165 | 61.3 |
| Total | 269 | 100.0 |

Table 42. Students can be exempt from a physical education course due to a high physical competency test score.

|  | Response | Percent |
| :--- | ---: | ---: |
| Yes | 5 | 1.8 |
| No | 267 | 98.2 |
| Total | 272 | 100.0 |

Table 43. Students can be exempt from a physical education course due to participation in vocational training.

| Yes | 7 | 2.6 |
| No | 264 | 97.4 |
| Total | 271 | 100.0 |

Table 49. Students can be exempt from a physical education course due to other reasons.

|  | Response | Percent |
| :--- | :--- | ---: |
| Yes |  | 1 |$|100.0|$| No |  |
| :--- | ---: |
| Total |  |

Although only a limited number of students are exempt from physical education, principals report that the top three reasons for doing so include permanent physical disabilities (65.7\%), religious reasons (42.2\%), and asthma (38.7\%).

Question 13. If students fail a required physical education course, are they required to repeat it?

Table 50. Students required to repeat physical education when failed.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High School | 105 | 105 | 100 |
| Middle School | 140 | 11 | 8 |
| Junior/Senior Combined | 10 | 9 | 92 |
| Total | 255 | 125 | 47 |

At the high school level all principals report that physical education must be repeated if failed. Eight percent of middle school principals report that the course must be repeated if failed.

Question 14. Is a newly hired physical education teacher or specialist required to be certified, licensed or endorsed by the state in physical education?

Table 51. Newly hired teachers that are required to be certified, licensed, or endorsed.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High School | 110 | 107 | 97 |
| Middle School | 155 | 153 | 98 |
| Junior/Senior Combined |  |  |  |
| Total | 277 | 271 | 98 |

In North Carolina 97\% of all high school and 98\% of all middle school level newly hired physical education teachers must be certified, licensed, or endorsed.

Physical education teaches and promotes critical life skills development for healthy lifestyles including physical activity. Physical activity among school age-children and staff improves school performance and establishes healthy habits for success in life. Moreover, research demonstrates that students participating in physical activity programs at school have increased concentration, and improved math, reading and writing test scores.

Question 15. Does this school offer students opportunities to participate in before-or-after school intramural activities or physical activity clubs?

Table 52. Opportunities to participate in intramural activities or physical activity clubs.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High School | 110 | 46 | 42 |
| Middle School | 155 | 96 | 61 |
| Junior/Senior Combined |  |  |  |
| Total | 277 | 150 | 54 |

In over half of all schools there are opportunities for students to participate in activities such as intramurals or physical activity clubs. At the middle school level $61 \%$ of principals report these opportunities, whereas at the high school level $42 \%$ report the availability of these programs.

Question 16. Does this school provide transportation home for students who participate in after-school intramural activities or physical activity clubs?

Table 53. Transportation for after-school activities.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High School | 46 | 8 | 19 |
| Middle School | 96 | 19 | 20 |
| Junior/Senior Combined |  |  |  |
| Total | 149 | 29 | 20 |

Transportation is provided for students who participate in after-school intramurals or physical activities in $20 \%$ of schools.

Question 17. Outside of school hours or when school is not in session, do children or adolescents use any of this school's activity or athletic facilities for community-sponsored sports teams or physical activity programs?

Table 54. Use of Activity or Athletic Facilities.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High School | 105 | 88 | 83 |
| Middle School | 156 | 149 | 95 |
| Junior/Senior Combined |  |  |  |
| Total | 272 | 246 | 90 |

Principals report that their high school (83\%) and middle school (95\%) activity and athletic fields and facilities are used for community-sponsored sports or physical activity programs. A higher percentage of middle school campuses share resources.

Question 18. Are students routinely allowed to miss all/part of physical education for any of the following reasons?

Table 55. Students are allowed to miss any or all physical education for remediation.

|  | Response | Percent |
| :--- | ---: | ---: |
| Yes | 52 | 18.9 |
| No | 223 | 81.1 |
| Total | 275 | 100.0 |

Table 56. Students are allowed to miss any or all of physical education for testing.

|  | Response | Percent |
| :--- | ---: | ---: |
| Yes | 60 | 21.7 |
| No | 216 | 78.3 |
| Total | 276 | 100.0 |

Table 57. Students are allowed to miss any or all of physical education for make-up work.

|  | Response | Percent |
| :--- | ---: | ---: |
| Yes | 16 | 5.8 |
| No | 260 | 94.2 |
| Total | 276 | 100.0 |

Table 58. Students are allowed to miss any or all of physical education for athletics.

|  | Response | Percent |
| :--- | ---: | ---: |
| Yes | 24 | 8.7 |
| No | 252 | 91.3 |
| Total | 276 | 100.0 |

Table 59. Students are allowed to miss any or all of physical education for clubs or activities.

|  | Response | Percent |
| :--- | ---: | ---: |
| Yes | 15 | 5.5 |
| No | 260 | 94.5 |
| Total | 275 | 100.0 |

Although the majority of students are required to take physical education at the middle and high school levels, they are allowed to miss classes for testing, remediation, athletics, making up missed class work or for attending clubs or other school activities. The most cited causes for missing physical education are testing (21.7\%) and remediation (18.9\%).

Question 19. Outside of school hours or when school is not in session, can people in the community use all or some of this school's physical activity or athletic facilities (such as gymnasiums, weight rooms, exercise rooms, track, athletic fields) without being in a supervised program?

Table 60. Some outdoor facilities can be used without being in a supervised program.

|  | Response | Percent |
| :--- | ---: | ---: |
| Yes | 222 | 81.6 |
| No | 50 | 18.4 |
| Total | 272 | 100.0 |

Table 61. All outdoor facilities can be used without being in a supervised program.

|  | Response | Percent |
| :--- | ---: | ---: |
| Yes | 146 | 53.9 |
| No | 125 | 46.1 |
| Total | 271 | 100.0 |

Table 62. School does not have outdoor facilities.

|  | Response | Percent |
| :--- | ---: | ---: |
| Yes | 43 | 19.0 |
| No | 183 | 81.0 |
| Total | 226 | 100.0 |

Table 63. Some indoor facilities can be used without being in a supervised program.

|  | Response | Percent |
| :--- | ---: | ---: |
| Yes | 167 | 62.3 |
| No | 101 | 37.7 |
| Total | 268 | 100.0 |

Table 64. All indoor facilities can be used without being in a supervised program.

|  | Response | Percent |
| :--- | ---: | ---: |
| Yes | 66 | 24.9 |
| No | 199 | 75.1 |
| Total | 265 | 100.0 |

Table 65. School does not have indoor facilities.

|  | Response | Percent |
| :--- | ---: | ---: |
| Yes | 32 | 14.5 |
| No | 189 | 85.5 |
| Total | 221 | 100.0 |

Of those schools reporting to have athletic facilities, those reporting the use of some indoor and outdoor facilities show the greatest use by people in the community.

Question 20. Does this school have any policy that prevents students from walking or biking to school?

Table 66. School policies to prevent walking or biking to school.

|  | Response | Percent |
| :--- | ---: | ---: |
| Yes | 24 | 8.9 |
| No | 246 | 91.1 |
| Total | 270 | 100.0 |

The majority of schools do not have policies that prohibit students from walking or biking to school.

Question 21. Are any of the following measures in place to assure the quantity and quality of the required physical education course that is taught in your school?

Table 67. Classroom observation is used to assure quantity and quality of the required physical education course.

|  | Response | Percent |
| :--- | ---: | ---: |
| Yes | 275 | 99.6 |
| No | 1 | .4 |
| Total | 276 | 100.0 |

Table 68. Monitoring of lesson plans is used to assure quantity and quality of the required physical education course.

|  | Response | Percent |
| :--- | ---: | ---: |
| Yes | 243 | 88.0 |
| No | 33 | 12.0 |
| Total | 276 | 100.0 |

Table 69. Verification for classroom assessment other than dressing out and participating is used to assure quantity and quality of the required physical education course.

|  | Response | Percent |
| :--- | ---: | ---: |
| Yes | 243 | 88.4 |
| No | 32 | 11.6 |
| Total | 275 | 100.0 |

Table 70. Certified physical education staff is used to assure quantity and quality of the required physical education course.

|  | Response | Percent |
| :--- | ---: | ---: |
| Yes | 272 | 98.6 |
| No | 4 | 1.4 |
| Total | 276 | 100.0 |

Table 71. Same class size as other academic courses is used to assure quantity and quality of the required physical education course.

|  | Response | Percent |
| :--- | ---: | ---: |
| Yes | 174 | 63.0 |
| No | 102 | 37.0 |
| Total | 276 | 100.0 |

Principals report measures are in place to assure the quality and quantity of physical education taught in the school. Key measures include classroom observations (99.6\%) and hiring certified staff (98.6\%)

## Health Education

Health education, taught as a required curriculum, teaches students the knowledge, attitudes, skills, behaviors, and gives them the confidence needed to adopt and maintain a healthy lifestyle and make positive health choices. Health education can include, but is not limited to the prevention of injury and violence, alcohol and other drug use, tobacco use, HIV/STD and teen pregnancy, and the promotion of proper nutrition, and physical activity.

Question 22. Is health education required for students in any of grades 6 through 12 in this school?

Table 72. Health education requirement.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High School | 108 | 106 | 98 |
| Middle School | 157 | 146 | 93 |
| Total | 276 | 263 | 95 |

Overall, principals report that health education is required in their schools (95\%). Ninety eight percent of high schools and $93 \%$ of middle schools responded positively to this statement.

Question 23. Is required health education taught in each of the following ways to students in grades 6 through 12 in this school?

Table 73. Health education is taught as a combined health and physical education course.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High School | 103 | 98 | 94 |
| Middle School | 140 | 119 | 85 |
| Junior/ Senior Combined | 11 | 10 | 92 |
| Total | 254 | 227 | 89 |

Health education and physical education are taught as a combined course in $94 \%$ of the high schools and $85 \%$ of the middle schools.

Table 74. Health education is taught in another course such as science, social studies, home economics, or English.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High School | 77 | 3 | 4 |
| Middle School | 111 | 23 | 21 |
| Total | 195 | 28 | 15 |

Only four percent of high schools report that health education is taught within another subject such as science, social studies, or home economics, whereas, $21 \%$ of middle schools report doing so.

Question 24. Is a required health education course taught in each of the following grades in this school?

Table 75. Health education course is taught in the sixth grade.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High School | 110 | 103 | 93 |
| Middle School |  |  |  |
| Junior/Senior Combined | 118 | 110 | 93 |
| Total |  |  |  |

At the middle school level, $93 \%$ of principals report that health education is taught at the sixth grade level, $95 \%$ at the seventh grade level, and $94 \%$ at the eighth grade level. Ninety- six percent of secondary principals report that health education is taught at the ninth grade level. Although the course is offered in high schools in the higher grades, the percentage drops from 20\% at the tenth grade to $10 \%$ in the twelfth grade.

Question 25. How many required health education courses do students take in grades 6 through 12 in this school?

Table 82. No health courses are taken in grades 6 through 12.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High School | 103 | 10 | 9 |
| Middle School | 142 | 22 | 15 |
| Junior/Senior Combined | 10 | 0 | 0 |
| Total | 255 | 32 | 12 |

Table 83. One health course is taken in grades 6 through 12.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High School | 103 | 85 | 82 |
| Middle School | 142 | 17 | 12 |
| Junior/Senior Combined | 10 | 2 | 21 |
| Total | 255 | 104 | 39 |

Table 84. Two health courses are taken in grades 6 through 12.

| High School | 103 | 5 | $\mathbf{5}$ |
| Middle School | 142 | 12 | 9 |
| Junior/Senior Combined | 10 | 0 | 0 |
| Total | 255 | 17 | 7 |

Table 85. Three health courses are taken in grades 6 through 12.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High School | 103 | 0 | 0 |
| Middle School | 142 | 83 | 58 |
| Junior/Senior Combined | 10 | 2 | 16 |
| Total | 255 | 85 | 34 |

Table 86. Four or more health courses are taken in grades 6 through 12.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High School | 103 | 3 | 3 |
| Middle School | 142 | 8 | 6 |
| Junior/Senior Combined | 10 | 6 | 63 |
| Total | 255 | 17 | 7 |

Eighty-two percent of high school principals report that one health education course is required and $58 \%$ of middle school principals report that three courses are taken at their schools.

Question 26. During this school year, about what percent of students in grades 6 through 12 were exempted or excused from any part of a required health education course by parental request?

Table 87. No students were exempt or excused from a required health education course by parent request.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High School | 91 | 58 | 65 |
| Middle School | 119 | 46 | 39 |
| Junior/Senior Combined | 10 | 3 | 33 |
| Total | 220 | 107 | 49 |

Table 88. Less than $1 \%$ of students were exempt or excused from a required health education course by parent request.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High School | 91 | 31 | 33 |
| Middle School | 119 | 65 | 55 |
| Junior/Senior Combined | 10 | 6 | 58 |
| Total | 220 | 102 | 46 |

Table 89. Between $1 \%$ to $5 \%$ of students were exempt or excused from a required health education course by parent request.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: | ---: |
| High School | 91 | 2 | 2 |
| Middle School | 119 | 6 | 5 |
| Junior/Senior Combined | 10 | 1 | 9 |
| Total | 220 | 9 | 4 |

Table 90. Six percent or more of students were exempt or excused from a required health education course by parent request.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High School | 91 | 0 | 0 |
| Middle School | 119 | 2 | 2 |
| Junior/Senior Combined | 10 | 0 | 0 |
| Total | 220 | 2 | 1 |

In this survey, $65 \%$ of high school principals and $39 \%$ of middle school principals report that students were not excused or exempt from taking a health education course by parent request.

Question 27. As students fail a required health education course, are they required to repeat it?

Table 91. Students must repeat a failed course.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High school | 92 | 92 | 100 |
| Middle school | 119 | 10 | 9 |
| Junior/Senior combined | 10 | 8 | 78 |
| Total | 221 | 110 | 48 |

High school principals report that all students who fail the health education course must repeat it. At the middle school level, only 9\% of principals report that the class must be repeated, if failed.

Question 28. Who coordinates health education in this school?
Table 92. No one coordinates health education in this school.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High School | 106 | 5 | 5 |
| Middle School | 157 | 7 | 5 |

| :--- | ---: | ---: | ---: |
| High School | 106 | 48 | 45 |
| Middle School | 157 | 82 | 53 |
| Junior/Senior Combined |  |  |  |
| Total | 275 | 137 | 50 |

Table 97. School nurse coordinates health education in this school.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High School | 106 | 1 | 1 |
| Middle School | 157 | 2 | 1 |
| Junior/Senior Combined |  |  |  |
| Total | 275 | 3 | 1 |

Table 98. Someone else coordinates health education in this school.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High School | 106 | 3 | 3 |
| Middle School | 157 | 8 | 5 |
| Junior/Senior Combined |  |  |  |
| Total | 275 | 11 | 4 |

While the district level health educator or curriculum coordinator coordinates health education in approximately one fourth of the schools, most principals at the middle school (53\%) and high school 45\%) report that the lead health education teachers provide this leadership.

Question 29. Is a newly hired health education teacher required to be certified, licensed, or endorsed by the state in health education?

Table 99. Requirements for newly hired health teachers.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High school | 110 | 98 | 88 |
| Middle school | 152 | 119 | 77 |
| Junior/Senior combined | 0 |  | 0 |
| Total | 274 | 228 | 82 |

Eighty-eight percent of high school principals and 77\% of middle school principals report that newly hired health education teachers must be certified, licensed, or endorsed by the state in health education.

Question 30. Does this school or school district have a school health committee or advisory group develop policies, coordinate activities, or seek student and family involvement in programs that address health issues?

Table 100. Schools with health committees or advisory groups that develop policies.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High school | 110 | 70 | 63 |
| Middle school | 155 | 108 | 68 |
| Junior/Senior combined |  |  |  |
| Total | 277 | 187 | 67 |

Between sixty and seventy percent of principals at middle and high schools report having health committees or advisory groups that develop policies, coordinate activities or seek student and family involvement in programs that address health issues.

Question 31. Are any of the following measures in place to assure the quantity and quality of the required health education course that is taught in your school?

Table 101. Classroom observation is used to assure quantity and quality of the required health education course.

|  | Response | Percent |
| :--- | ---: | ---: |
| Yes | 273 | 98.2 |
| No | 5 | 1.8 |
| Total | 278 | 100.0 |

Table 102. Monitoring of lesson plans is used to assure quantity and quality of the required health education course.

|  | Response | Percent |
| :--- | ---: | ---: |
| Yes | 238 | 85.9 |
| No | 39 | 14.1 |
| Total | 277 | 100.0 |

Table 103. Certified health education staff is used to assure quantity and quality of the required health education course.

|  | Response | Percent |
| :--- | ---: | ---: |
| Yes | 249 | 90.9 |
| No | 25 | 9.1 |
| Total | 274 | 100.0 |

Table 104. Same class size is used to assure quantity and quality of the required health education course.

|  | Response | Percent |
| :--- | ---: | ---: |
| Yes | 200 | 72.7 |
| No | 75 | 27.3 |
| Total | 275 | 100.0 |

Classroom observation (98.2\%) is the top measure to assure the quality and quantity of health education courses, followed by hiring certified staff ( $90.9 \%$ ), monitoring lesson plans (85.9\%), and maintaining class size (72.7\%).

## Question 32. Does your school district currently have any policies concerning birth control or abortion referrals?

Table 105. Schools with policies regarding birth control referrals.

|  | Number | Response | Percent |
| :--- | :--- | ---: | ---: |
| Teachers allowed to refer |  | 7 | 2.9 |
| Teachers not allowed to refer |  | 133 | 54.5 |
| No policy |  | 104 | 42.6 |
| Total | 244 | 244 | 100.0 |

Less than 3\% of principals report having policies that allow teachers to refer students for birth control. Forty-two percent report that there is not a policy in place concerning birth control referrals. Over half (54.5\%) of the principals report that teachers are not allowed to refer students for birth control.

Table 106. School district with policies prohibiting abortion referrals.

|  | Number | Response | Percent |
| :--- | :--- | ---: | ---: |
| Teachers allowed to refer |  | 4 | 1.6 |
| Teachers not allowed to refer |  | 135 | 55.1 |
| No policy |  | 106 | 43.3 |
| Total | 245 | 245 | 100.0 |

Less than $2 \%$ of principals report having policies that allow teachers to refer students for abortions. Forty-three percent of principals report that there is not a policy in place concerning abortion referrals. Over half (55.1\%) of principals report that teachers are not allowed to refer students for abortions.

## Tobacco Policies and Programs

Tobacco is the leading preventable contributor to adult death in the United States and the vast majority of smokers begin smoking before the age of eighteen. Schools have a unique role in preventing tobacco use through education and tobacco free school policies.

Question 33. Has this school adopted a policy prohibiting tobacco use?
Table 107. Schools that have adopted policies regarding tobacco use.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High School | 111 | 109 | 98 |
| Middle School | 156 | 154 | 98 |
| Junior/Senior Combined |  |  |  |
| Total | 278 | 272 | 98 |

Ninety-eight percent of all middle and high schools have adopted a policy prohibiting tobacco use on campus.

Question 34. Does the tobacco prevention policy specifically prohibit use of each type of tobacco for students?

Table 108. The tobacco prevention policy specifically prohibits the use of cigarettes for students.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High School | 108 | 107 | 99 |

| High School | 105 | 72 | 69 |
| Middle School | 148 | 101 | 67 |
| Junior/Senior Combined |  |  |  |
| Total | 261 | 179 | 68 |

Policies prohibit student use of cigarettes, smokeless tobacco, cigars, and pipes in $97 \%$ to $99 \%$ of middle and high schools. Sixty-eight to $70 \%$ of middle and high schools have similar policies for faculty and staff. Sixty-seven to $69 \%$ of middle and high schools report having policies that prevent visitors' use of tobacco on campus.

Question 37. Does the tobacco prevention policy specifically prohibit tobacco use during each of the following times for each of the following groups?

Table 120. The tobacco prevention policy specifically prohibits tobacco use during school hours for students.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High School | 108 | 108 | 100 |
| Middle School | 151 | 151 | 100 |
| Junior/Senior Combined |  |  |  |
| Total | 267 | 267 | 100 |

Table 121. The tobacco prevention policy specifically prohibits tobacco use during non-school hours for students.

| Total | 263 | 166 | 63 |

Table 124. The tobacco prevention policy specifically prohibits tobacco use during school hours for visitors.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High School | 107 | 81 | 76 |
| Middle School | 147 | 106 | 71 |
| Junior/Senior Combined |  |  |  |
| Total | 262 | 194 | 73 |

Table 125. The tobacco prevention policy specifically prohibits tobacco use during non-school hours for visitors.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High School | 105 | 52 | 50 |
| Middle School | 148 | 90 | 59 |
| Junior/Senior Combined |  |  |  |
| Overall | 261 | 149 | 57 |

The tobacco prevention policy specifically prohibits tobacco use during school and non-school hours. Tobacco use during the school day is prohibited in $100 \%$ of schools for middle and high school students. Ninety-four percent of schools report policies that address the prohibition of tobacco during nonschool hours for middle and high school students. Overall, 71\% of schools report that tobacco use is prohibited for faculty and staff during school hours and $63 \%$ report policies regarding non-school hours. With regard to visitors, $73 \%$ report that policies prohibit tobacco use during school hours and $57 \%$ report policies for non-school hours.

## Question 38. Does the tobacco prevention policy specifically prohibit tobacco use in each of the following locations for each of the following groups?

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High School | 105 | 44 | 43 |
| Middle School | 147 | 69 | 46 |
| Junior/Senior Combined |  |  |  |
| Total | 261 | 118 | 46 |

All middle and high schools report that their policies prohibit tobacco use in school buildings, on school grounds, and in vehicles used to transport students. A larger percentage of policies restrict the use of tobacco in school buildings than on school grounds for faculty, staff, and visitors.

Question 39. Does your school have procedures to inform each of the following groups about the tobacco prevention policy that prohibits their use of tobacco?

Table 138. Procedures for informing students about tobacco prevention policies.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High School | 108 | 108 | 100 |
| Middle School | 152 | 152 | 100 |
| Junior/Senior Combined |  |  |  |
| Total | 269 | 269 | 100 |

Table 139. Procedures for informing faculty and staff about tobacco prevention policies.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High School | 105 | 105 | 100 |
| Middle School | 149 | 148 | 99 |
| Junior/Senior Combined |  |  |  |
| Total | 263 | 262 | 100 |

Table 140. Procedures for informing visitors about tobacco prevention policies.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High School | 101 | 84 | 84 |
| Middle School | 143 | 119 | 82 |
| Junior/Senior Combined |  |  |  |
| Total | 253 | 211 | 83 |

One hundred percent of high schools participating in the study report having procedures in place to inform students, faculty, and staff of their tobacco prevention policies. Over 80\% report procedures for informing visitors of the policy.

Question 40. Does your school have procedures to inform parents about the policy that prohibits tobacco use by students?

Table 141. Procedures to inform parents about tobacco use.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High school | 108 | 107 | 99 |
| Middle school | 151 | 150 | 99 |
| Junior/Senior Combined |  |  |  |
| Total | 268 | 266 | 99 |

Ninety-nine percent of principals report that procedures are in place to inform parents of the tobacco use policies in their school.

Question 41. Does your school designate an individual who has primary responsibility for seeing that the tobacco use prevention policy is enforced?

Table 142. Schools with an individual to enforce tobacco policy.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High school | 107 | 64 | 60 |
| Middle school | 151 | 88 | 58 |
| Junior/Senior Combined |  |  |  |
| Total | 267 | 157 | 59 |

Approximately 60\% of principals report that the school has a designee to ensure that the tobacco use prevention policy is enforced.

## Question 42. When students are caught smoking cigarettes, how often

 are each of the following actions taken?Table 143. Parents or guardians are informed when students are caught smoking cigarettes.

|  | Number | Response | Percent |
| :---: | :---: | :---: | :---: |
| High school Never | 107 | 0 | 0 |
| Rarely |  | 0 | 0 |

| Sometimes |  | 76 | 51 |  |
| Always or almost always |  | 42 | 28 |  |
| Total | 263 |  |  |  |

No middle or high schools report failing to take action when students are caught smoking cigarettes. Overall, $94 \%$ report that parents are contacted when the incident occurs, $27 \%$ of all students are suspended from school and $33 \%$ are given in-school suspension.

## Question 43. Does your school provide referrals to tobacco cessation programs for each of the following groups?

Table 152. Tobacco cessation program referrals for faculty and staff.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High school | 110 | 21 | 20 |
| Middle school | 157 | 47 | 29 |
| Junior/Senior Combined |  |  |  |
| Total | 279 | 70 | 25 |

Table 153. Tobacco cessation program referrals for students.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High school | 110 | 62 | 56 |
| Middle school | 157 | 83 | 51 |
| Junior/Senior Combined |  |  |  |
| Total | 279 | 149 | 52 |

Over one half of school principals report having tobacco cessation programs for students, yet only $25 \%$ report such programs for faculty and staff.

## Question 44. Is tobacco advertising prohibited in each of the following locations?

Table 154. Advertising is prohibited in the school building.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High school | 109 | 96 | 88 |
| Middle school | 158 | 147 | 93 |
| Junior/Senior Combined |  |  |  |
| Total | 279 | 253 | 91 |

Table 155. Advertising is prohibited on the school grounds.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High school | 109 | 96 | 88 |
| Middle school | 158 | 145 | 92 |
| Junior/Senior Combined |  |  |  |
| Total | 279 | 252 | 90 |

Table 156. Advertising is prohibited on school buses or other vehicles used to transport students.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High school | 109 | 96 | 88 |
| Middle school | 158 | 145 | 92 |
| Junior/Senior Combined |  |  |  |
| Total | 279 | 252 | 90 |

Table 157. Advertising is prohibited in school publications.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High school | 109 | 94 | 86 |
| Middle school | 158 | 142 | 90 |
| Junior/Senior Combined |  |  |  |
| Total | 279 | 247 | 89 |

Overall, tobacco advertising is prohibited in middle and high schools (91\%) in the school building, $90 \%$ on school grounds, $90 \%$ in vehicles used to transport students, and 89\% in school publications overall.

## Question 45. Is tobacco advertising through sponsorship of school events prohibited?

Table 158. Schools that prohibit tobacco advertising.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High school | 107 | 96 | 89 |
| Middle school | 157 | 150 | 95 |
| Junior/Senior Combined |  |  |  |
| Overall | 275 | 257 | 93 |

Ninety-five percent of middle school and 89\% of high school principals report prohibiting tobacco advertising through sponsorship of school events.

Question 46. Are students at your school prohibited from wearing tobacco brand-name apparel or carrying merchandise with tobacco company names, logos, or cartoon characters on it?

Table 159. Schools that prohibit students from wearing items that advertise tobacco.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High school | 108 | 81 | 76 |
| Middle school | 158 | 130 | 82 |
| Junior/Senior Combined |  |  |  |
| Overall | 278 | 221 | 79 |

Over 75\% of all school principals report that students are prohibited from wearing items that advertise tobacco products.

Question 47. Does your school post signs marking a tobacco-free school zone, that is, a specified distance from school grounds where tobacco use by students, faculty and staff, and visitors is not allowed?

Table 160. Schools that post signs marking a tobacco-free zone.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High school | 109 | 62 | 56 |
| Middle school | 157 | 91 | 57 |
| Junior/Senior Combined |  |  |  |
| Overall | 278 | 160 | 57 |

Approximately half of all principals report that their school posts signs that mark a tobacco-free zone.

Question 48. Does your school have an Alternative to Suspension (ATS) program in place for students who are caught using tobacco on campus?

Table 161. Schools that have ATS program.

|  | Number | Response | Percent |
| :--- | :--- | ---: | ---: |
| High school |  | 169 | 63.3 |
| Middle school |  | 96 | 36.7 |
| Junior/Senior Combined |  |  |  |
| Total | 267 | 267 | 100.0 |

Middle school principals (36.7\%) and high school principals (63.3\%) report that there is an Alternative to Suspension (ATS) program available on their campus for students who are caught using tobacco.

Question 49. In your best estimation, what percentage of faculty and staff use tobacco on school property during school hours in designated smoking areas?

Table 162. Faculty and staff who use tobacco on school grounds.

|  | Number | Response | Percent |
| :---: | :---: | :---: | :---: |
| 0\% |  | 130 | 48.3 |
| 5\% |  | 94 | 34.9 |
| 10\% |  | 29 | 10.8 |
| 15\% |  | 8 | 3.0 |
| 20\% |  | 6 | 2.2 |
| 25\% or greater |  | 2 | . 7 |
| Total | 269 | 269 | 100.0 |

Approximately $80 \%$ of all principals report that 5\% or less of their faculty and staff use tobacco on school property.

Question 50. Do you think your school would benefit if your school district adopted a 100\% Tobacco Free School policy, meaning tobacco use is prohibited by everyone at all times?

Table 163. School benefits if tobacco free policy is adopted.

|  | Number | Response | Percent |
| :--- | :--- | ---: | ---: |
| Already 100\% Tobacco Free School |  | 139 | 52.1 |
| Yes |  | 76 | 28.5 |
| No |  | 52 | 19.5 |
| Total | 267 | 267 | 100.0 |

Over half of principals report that a tobacco free policy is already in place at their respective schools. Of those without such a policy, $28.5 \%$ agree that the school would benefit from adopting a policy.

## Nutrition Policies

Schools play an important role in influencing students' eating patterns. Nutrition policies can help ensure that eating habits will contribute to students' learning achievement and lifelong good health. Nutrition policies should address comprehensive, integrated nutrition education; the school meals program; and food choices outside of the cafeteria such as vending machines, school stores, classroom celebrations, meetings, concessions and fundraisers.

## Question 51. How long do students have to eat lunch once they are seated?

Table 164. Students have less than 20 minutes to eat lunch.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High school | 110 | 31 | 29 |
| Middle school | 158 | 38 | 23 |
| Junior/Senior Combined |  |  |  |
| Total | 280 | 73 | 26 |

Table 165. Students have 20 minutes or more to eat lunch.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High school | 110 | 79 | 71 |
| Middle school | 158 | 120 | 77 |
| Junior/Senior Combined |  |  |  |
| Total | 280 | 206 | 74 |

Table 166. The school does not serve lunch.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High school | 110 | 0 | 0 |
| Middle school | 158 | 0 | 0 |
| Junior/Senior Combined |  |  |  |
| Total | 280 | 1 | 0 |

Approximately 70\% of principals report students have twenty minutes or more for eating lunch once they are seated and approximately one fourth of them report students have less than twenty minutes.

Question 52. Does this school or district have a policy stating that fruits or vegetables will be offered at school settings such as student parties, after-school programs, staff meetings, parents' meetings, or concession stands?

Table 167. Schools with a policy for serving fruits/vegetables at school settings.

|  | Number | Response | Percent |
| :--- | :--- | :--- | :--- |
| High school | 108 | 13 | 12 |
| Middle school | 157 | 18 | 12 |
| Total | 277 | 32 | 11 |

Twelve percent of principals report that their school has a policy stating that fruits or vegetables will be served at school settings for student parties, afterschool programs, staff meetings, parent meetings, or concession stands.

Question 53. Can students purchase snack foods or beverages from vending machines or at the school store, canteen, or snack bar?

Table 168. Schools where students can purchase snack foods or beverages at school vending machines, store, canteen, or snack bar.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High school | 111 | 105 | 95 |
| Middle school | 158 | 134 | 83 |
| Total | 281 | 251 | 88 |

Ninety-five percent of high school and 83\% of middle school principals report that students can purchase snack foods or beverages at various places on the school campus.

Question 54. Can students purchase any of the following snack foods or beverages from vending machines or at the school store, canteen, or snack bar?

Table 169. Schools that sell chocolate candy.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High School | 104 | 65 | 63 |
| Middle School | 134 | 65 | 48 |
| Junior/Senior Combined | 12 | 7 | 59 |
| Total | 250 | 137 | 55 |

Table 170. Schools that sell other kinds of candy.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High School | 104 | 69 | 67 |
| Middle School | 134 | 73 | 54 |
| Junior/Senior Combined | 12 | 8 | 66 |
| Total | 250 | 150 | 60 |

Table 171. Schools that sell salty snacks that are not low in fat.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High School | 104 | 92 | 89 |
| Middle School | 134 | 102 | 76 |

| Total | 250 | 100 | 40 |

Table 174. Schools that sell low-fat cookies, crackers, cakes, pastries, or other low-fat baked goods.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High School | 104 | 75 | 72 |
| Middle School | 134 | 88 | 66 |
| Junior/Senior Combined | 12 | 8 | 68 |
| Total | 250 | 171 | 68 |

Table 175. Schools that sell soft drinks, sports drinks, or fruit drinks that are not 100\% juice.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High School | 104 | 98 | 95 |
| Middle School | 132 | 120 | 91 |
| Junior/Senior Combined | 12 | 11 | 92 |
| Total | 248 | 229 | 92 |

Table 176. Schools that sell $100 \%$ fruit juice.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High School | 105 | 91 | 86 |
| Middle School | 133 | 112 | 83 |
| Junior/Senior Combined | 12 | 10 | 82 |
| Total | 250 | 213 | 84 |

Table 177. Schools that sell bottled water.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High School | 105 | 102 | 97 |
| Middle School | 133 | 125 | 93 |
| Junior/Senior Combined | 12 | 11 | 92 |
| Overall | 250 | 238 | 95 |

Overall, principals report that candy (66\%), salty snacks (82\%), fruits and vegetables (40\%), low-fat baked goods (68\%), juice drinks (92\%), and bottled water ( $95 \%$ ) can be purchased from the school store, vending machines, or at a snack bar at their school.

Question 55. Can students purchase candy; high fat snacks; or soft drinks, sports drinks, or fruit drinks that are not $100 \%$ fruit juice during the following times?

Table 178. Schools that sell candy, snacks, or drinks before classes begin in the morning.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High School | 102 | 72 | 71 |
| Middle School | 132 | 11 | 9 |
| Junior/Senior Combined | 12 | 4 | 34 |
| Total | 246 | 87 | 35 |

Table 179. Schools that sell candy, snacks, or drinks during any school hours when meals are not being served.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High School | 102 | 56 | 55 |
| Middle School | 133 | 28 | 21 |
| Junior/Senior Combined | 12 | 3 | 23 |
| Total | 247 | 87 | 35 |

Table 180. Schools that sell candy, snacks, or drinks during school lunch periods.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High School | 103 | 35 | 34 |
| Middle School | 132 | 73 | 55 |
| Junior/Senior Combined | 12 | 7 | 58 |
| Overall | 247 | 115 | 47 |

Less than half of the principals report that their schools sell candy, snacks, or drinks before school, during school, and during lunch periods. Seventy-one percent of high schools sell items before class begins and $55 \%$ continue to sell items when meals are not being served.

Question 56. Has this school voluntarily adopted NC's Recommended Standards for All Foods Available in School that was developed by a consensus panel in December 2003?

Table 181. Schools with NC's Recommended Standards for all Foods Available in School.

|  | Response | Percent |
| :--- | ---: | ---: |
| Yes | 83 | 31.2 |
| No | 14 | 5.3 |
| Not aware of the standards | 169 | 63.5 |
| Total |  | 100.0 |

Approximately one third of all principals report having a school that voluntarily adopted NC's Recommended Standards for All Foods Available in School.

Question 57. In a typical week, on how many days are brand name fast food offered to students as a la carte lunch items?

Table 182. Days that brand name fast foods are offered to students as a la carte lunch items.

|  | Response | Percent |
| :--- | ---: | ---: |
| 0 Days | 153 | 56.9 |
| 1 Day | 27 | 10.0 |
| 2 Days | 11 | 4.1 |
| 3 Days | 5 | 1.9 |
| 4 Days | 1 | 0.4 |
| 5 Days | 72 | 26.8 |
| Total | 269 | 100.0 |

Over half of school principals report that fast foods are not served as a la carte lunch items. One fourth of the schools do provide these items five days per week.

Question 58. In a typical week, on how many days are brand name fast foods offered to students for reimbursable lunch meals?

Table 183. Days that brand name fast foods are offered to students for reimbursable lunch meals.

|  | Response | Percent |
| :--- | ---: | ---: |
| 0 Days | 188 | 75.8 |
| 1 Day | 15 | 6 |
| 2 Days | 4 | 1.6 |
| 3 Days | 4 | 1.6 |
| 5 Days | 37 | 14.9 |
| Total | 248 | 100.0 |

Seventy-five percent of the principals report that fast foods are offered to students for reimbursement lunch meals.

Question 59. Each day for lunch, are students at this school offered a choice between vegetables, fruits, or entrees?

Table 184. Schools that offer a choice between vegetables, fruits, or entrees.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| Two or more vegetables | 273 | 257 | 94.1 |
| Two or more different fruits or 100\% <br> fruit juices | 272 | 239 | 87.9 |
| Two or more different entrees or main <br> courses | 272 | 259 | 95.2 |
| One or more low fat entree | 265 | 178 | 67.2 |

Two or more different entrees are offered by $95.2 \%$ of the schools and two or more vegetables are offered in $94.1 \%$ of the schools. Sixty-seven percent of principals report that low fat entrees are offered in their schools.

## Question 60. Each day for lunch, are students at this school offered a choice of the following kinds of milk?

Table 185. Kinds of milk offered during lunch.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| Low fat (1\%) unflavored milk | 258 | 182 | 70.5 |
| Low fat (1\%) flavored milk (any flavor) | 256 | 149 | 58.2 |
| Skim unflavored milk | 253 | 138 | 54.5 |
| Skim flavored milk (any flavor) | 248 | 58 | 23.4 |
| Reduced fat (2\%) unflavored milk | 254 | 177 | 69.7 |
| Reduced fat (2\%) flavored milk (any <br> flavor) | 251 | 130 | 51.8 |
| Whole milk (3 1/2\% fat) unflavored milk <br> Whole milk (3 1/2\% fat) flavored milk <br> (any flavor) | 252 | 180 | 71.4 |

The kind of milk served most frequently during lunch includes whole milk, unflavored ( $71.4 \%$ ), low fat, unflavored ( $70.5 \%$ ), and reduced fat, unflavored ( $69.7 \%$ ).

Question 61. How much profit is generated annually from vending machines in this school that are not operated by the Child Nutrition Program?

Table 186. Profit generated from vending machines.

| Question Response | Response | Percent |
| :--- | ---: | ---: |
| Less than $\$ 2,500$ | 144 | 56.0 |
| $\$ 2,500-\$ 4,999$ | 52 | 20.2 |
| $\$ 5,000-\$ 9,999$ | 30 | 11.7 |
| $\$ 10,000-\$ 19,999$ | 17 | 6.6 |
| $\$ 20,000-\$ 29,999$ | 5 | 1.9 |
| $\$ 30,000-\$ 39,999$ | 7 | 2.7 |
| $\$ 40,000-\$ 49,999$ | 1 | 0.4 |
| More than $\$ 50,000$ | 1 | 0.4 |
| Total | 257 | 100.0 |

Over half of the principals report that their schools generate less than \$2,500 in profits annually from vending machines. Between $\$ 2,500$ and $\$ 9,999$ in profits were generated from vending machines in a fifth of the schools. Less than $1 \%$ of the principals report making over $\$ 40,000$ from vending machines.

Question 62. What do these vending revenues fund in your school?
Table 187. Uses of vending revenues at the school.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| Textbooks | 239 | 32 | 13.4 |
| Computers | 243 | 68 | 28.0 |
| General Supplies | 249 | 200 | 80.3 |
| Salaries | 239 | 8 | 3.3 |
| Sports Team | 248 | 92 | 37.1 |
| Signage and Scoreboards | 239 | 51 | 21.3 |
| Field Trips | 244 | 72 | 29.5 |
| Band | 240 | 29 | 12.1 |
| Graduation | 238 | 33 | 13.9 |
| Other Extra Curricular Activities | 244 | 118 | 48.4 |

Principals report that general school supplies (80.3\%), other extracurricular activities (48.4\%), sports teams (37.1\%), field trips (29.5\%), and computers ( $28.0 \%$ ) are supported by revenues generated through vending machines.

## Question 63. Does your school or school system provide any financial support to this school's food service program?

Table 188. School food service programs that receive financial support from school.

|  | Response | Percent |
| :--- | ---: | ---: |
| Yes | 130 | 49.6 |
| No | 132 | 50.4 |
| Total | 262 | 100.0 |

Approximately half of all principals report that the school or school system provides financial support for the school's food services program.

Question 64. Do teachers in your school use food as a reward?
Table 189. Teachers who use food as a reward.

|  | Number | Response | Percent |
| :--- | :--- | ---: | ---: |
| Yes |  | 169 | 62.6 |
| No |  | 101 | 37.4 |
| Total | 270 | 270 | 100.0 |

According to school principals (62.6\%), teachers at their schools use food as a reward for students.

Question 65. During the past 12 months, have any of the following staff worked collaboratively with your school's child nutrition personnel on nutrition education related activities?

Table 190. Individuals or groups who work with the child nutrition personnel.

|  | Number | Response | Percent |
| :---: | :---: | :---: | :---: |
| Health Education Staff | 266 | 78 | 29.3 |
| Physical Education Staff | 266 | 59 | 22.2 |
| Classroom Teachers | 266 | 79 | 29.7 |
| Health Services Staff from this School | 265 | 59 | 22.3 |
| Mental Health or Social Services Staff | 264 | 25 | 9.5 |
| Community Partners such as Public Health or Cooperative Extension | 264 | 50 | 18.9 |

Staff members report some collaboration with the school's child nutrition personnel. Those professionals most likely to work on nutrition related activities with the nutrition personnel are classroom teachers (29.7\%), health education staff (29.3\%), health services staff (22.3\%), and the physical education staff (22.2\%).

## Violence Prevention

Efforts to ensure a safe school can include education on bullying, peer mediation, and gang violence. It can also include policies on student identification, closed campus, and routine inspections. With a comprehensive approach to violence prevention students and staff can feel secure at their school.

Question 66. Does your school implement each of the following safety and security measures?

Table 191. Schools require visitors to report to the main office or reception area upon arrival.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High School | 108 | 108 | 100 |
| Middle School | 156 | 156 | 100 |
| Junior/Senior Combined |  |  |  |
| Total | 276 | 276 | 100 |

Table 192. Schools that maintain a "closed campus" where students are not allowed to leave school during the school day, including during lunchtime.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High School | 108 | 98 | 91 |
| Middle School | 156 | 152 | 97 |
| Junior/Senior Combined |  |  |  |
| Total | 276 | 260 | 94 |

Table 193. Schools that use staff or adult volunteers to monitor school halls during and between classes.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High School | 108 | 100 | 92 |
| Middle School | 155 | 139 | 89 |
| Junior/Senior Combined |  |  |  |
| Total | 275 | 250 | 90 |

Table 194. Schools that routinely conduct bag, desk, or locker checks.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High School | 106 | 61 | 58 |
| Middle School | 154 | 82 | 53 |
| Junior/Senior Combined |  |  |  |
| Total | 271 | 149 | 55 |

Table 195. Schools that prohibit students from carrying backpacks or book bags at school.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High School | 108 | 12 | 11 |
| Middle School | 155 | 49 | 31 |
| Junior/Senior Combined |  |  |  |
| Total | 274 | 63 | 23 |

Table 196. Schools that require students to wear school uniforms.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High School | 108 | 1 | 1 |
| Middle School | 155 | 14 | 9 |
| Junior/Senior Combined |  |  |  |
| Total | 274 | 19 | 7 |

Table 197. Schools that require students to wear identification badges.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High School | 108 | 12 | 11 |
| Middle School | 155 | 16 | 10 |
| Junior/Senior Combined |  |  |  |
| Total | 273 | 29 | 10 |

Table 198. Schools that use metal detectors.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High School | 108 | 33 | 31 |
| Middle School | 154 | 36 | 23 |
| Junior/Senior Combined |  |  |  |
| Total | 273 | 72 | 26 |

Table 199. Schools that have uniformed police, undercover police, or security guards during the regular school day.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High School | 108 | 105 | 97 |
| Middle School | 154 | 116 | 74 |
| Junior/Senior Combined |  |  |  |
| Total | 273 | 230 | 83 |

All principals report that visitors are required to report to the main office or reception area upon arrival to the campus. Over $90 \%$ of principals report that their schools did not allow students to leave during the school day. Approximately $90 \%$ of all principals report using staff or adult volunteers to monitor the school halls during and between classes. Approximately half of all principals report routine bag, desk, or locker checks. At the high school level, $11 \%$ prohibit students from carrying backpacks or book bags, whereas, a third of middle schools prohibit them from doing so. Only $11 \%$ of high schools require students to wear identification badges and $10 \%$ of middle schools require students to wear them. One third of all high school principals and one fourth of all middle school principals report the use of metal detectors in their schools. Uniformed police, undercover police, or security guards are on middle school campuses ( $74 \%$ ) and high school campuses ( $97 \%$ ) of the regular school day.

## Question 67. Does your school have or participate in each of the following programs?

Table 200. Schools with a peer mediation program.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High School | 107 | 63 | 58 |
| Middle School | 157 | 91 | 57 |
| Junior/Senior Combined |  |  |  |
| Overall | 275 | 160 | 57 |

Table 201. Schools with a safe-passage to school program.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High School | 106 | 9 | 9 |
| Middle School | 153 | 18 | 12 |
| Junior/Senior Combined |  |  |  |
| Overall | 271 | 28 | 10 |

Table 202. Schools with a program to prevent gang violence.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High School | 105 | 20 | 21 |
| Middle School | 156 | 47 | 29 |
| Junior/Senior Combined |  |  |  |
| Overall | 273 | 69 | 26 |

Table 203. Schools with a program to prevent bullying.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High School | 105 | 28 | 27 |
| Middle School | 157 | 92 | 58 |
| Junior/Senior Combined |  |  |  |
| Overall | 274 | 126 | 46 |

Approximately half of the middle and high schools have peer mediation programs, ten percent have a safe-passage to school program, and one fourth have a program to prevent gang violence. In 58\% of the middle schools and $27 \%$ of high schools, there are programs to prevent bullying.

Question 68. Does your school have a written policy for responding to violence?

Table 204. Schools with a written policy for responding to violence.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High School | 105 | 105 | 100 |
| Middle School | 151 | 145 | 96 |
| Junior/Senior Combined |  |  |  |
| Overall | 268 | 262 | 98 |

All of the high school principals and $96 \%$ of middle school principals report having a written policy for responding to violence in their schools.

## Asthma Management

The North Carolina School Asthma Survey results suggest that another 17\% of children have asthma-like symptoms but no diagnosis by a physician. The survey also found that $50 \%$ of children with asthma report missing school each month due to breathing difficulties. With that said, an estimated \$100 million is spent annually on asthma care for North Carolina children. Schools can play a major role in asthma management for their students.

Question 69. The following school-based asthma management activities are implemented.

Table 205. Schools that provide a full-time registered nurse.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High School | 110 | 10 | 9 |
| Middle School | 157 | 16 | 10 |
| Junior/Senior Combined |  |  |  |
| Overall | 279 | 27 | 9 |

Table 206. Schools that identify and track all students with asthma.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High School | 109 | 85 | 79 |
| Middle School | 157 | 141 | 90 |
| Junior/Senior Combined |  |  |  |
| Overall | 277 | 236 | 86 |

Table 207. Schools that obtain and use an Asthma Action Plan or individualized health plan for all students with asthma.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High School | 106 | 74 | 70 |
| Middle School | 156 | 125 | 80 |
| Junior/Senior Combined |  |  |  |
| Overall | 273 | 208 | 76 |

Table 208. Schools that assure immediate access to medication as prescribed by a physician and approved by parents.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High School | 108 | 102 | 94 |
| Middle School | 157 | 149 | 95 |
| Junior/Senior Combined |  |  |  |
| Overall | 276 | 262 | 95 |

Table 209. Schools that provide intensive case management for students with asthma who are absent 10 days or more per year.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High School | 108 | 42 | 38 |
| Middle School | 154 | 75 | 49 |
| Junior/Senior Combined |  |  |  |
| Overall | 273 | 122 | 45 |

Table 210. Schools that educate staff about asthma.

| Yes | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High School | 109 | 66 | 60 |
| Middle School | 156 | 117 | 76 |
| Junior/Senior Combined |  |  |  |
| Overall | 276 | 193 | 71 |

Table 211. Schools that educate students with asthma about asthma management.

| Yes | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High School | 109 | 48 | 45 |
| Middle School | 155 | 117 | 75 |
| Junior/Senior Combined |  |  |  |
| Total | 274 | 171 | 63 |

Table 212. Schools that educate all students about asthma awareness in at least one grade.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High School | 108 | 30 | 28 |
| Middle School | 150 | 62 | 41 |
| Junior/Senior Combined |  |  |  |
| Total | 270 | 97 | 36 |

Table 213. Schools that encourage full participation in physical education and physical activity when students with asthma are doing well.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High School | 107 | 98 | 92 |
| Middle School | 156 | 154 | 99 |
| Junior/Senior Combined |  |  |  |
| Total | 275 | 264 | 96 |

Table 214. Schools that provide modified physical education and physical activities as indicated by the student's Asthma Action Plan.

| Yes | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High School | 108 | 90 | 83 |
| Middle School | 153 | 143 | 93 |
| Junior/Senior Combined |  |  |  |
| Total | 273 | 244 | 89 |

Principals report that their schools incorporate a variety of asthma management activities in their school program. While only approximately $10 \%$ of schools employ a full time nurse, overall, $86 \%$ of them identify and track students with asthma and $76 \%$ of principals report that they use an Asthma Action Plan for all students with asthma. When medication is prescribed by a physician and approved by parents, $95 \%$ of schools allow immediate access to those medications. Students and staff are educated about asthma management in the majority of schools. Schools modify physical education for students with asthma in $83 \%$ of the high schools and in $93 \%$ of middle schools. Full participation in physical education is encouraged when students with asthma are doing well according to $96 \%$ of all principals.
HIV Policies

An HIV policy strives to maintain a balance between the need to educate all eligible students to protect students' and employees' rights, and to control the communicable disease. Under certain circumstances, students and employees with HIV may pose a threat to the health and safety of other students and staff. The North Carolina 2004 Profile asked several questions about HIV policies, and the results are summarized below.

Question 70. Has this school adopted a written policy that protects the rights of students and/or staff with HIV infection or AIDS?

Table 215. Schools with a written policy that protects the rights of students and/or staff with HIV infection or AIDS.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High School | 103 | 52 | 50 |
| Middle School | 152 | 83 | 54 |
| Junior/Senior Combined |  |  |  |
| Total | 267 | 139 | 51 |

Approximately half of all principals report that there is a written policy that protects the rights of students and/or staff with HIV infection or AIDS.

Question 71. Does that policy address each of the following issues for students and/or with staff with HIV infection or AIDS?

Table 216. Schools with HIV infection policy that addresses the attendance of students with HIV infection.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High School | 49 | 45 | 92 |
| Middle School | 77 | 66 | 85 |
| Junior/Senior Combined |  |  |  |
| Total | 130 | 115 | 88 |

Table 217. Schools with HIV infection policy that has procedures to protect HIV-infected students and staff from discrimination.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High School | 50 | 50 | 100 |
| Middle School | 79 | 72 | 90 |
| Junior/Senior Combined |  |  |  |
| Total | 133 | 126 | 94 |

Table 218. Schools with HIV infection policy that has procedures to maintain confidentiality of HIV-infected students and staff.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High School | 51 | 51 | 100 |
| Middle School | 79 | 78 | 98 |
| Junior/Senior Combined |  |  |  |
| Total | 134 | 133 | 99 |

Table 219. Schools with HIV infection policy that has procedures to address worksite safety.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High School | 51 | 51 | 100 |
| Middle School | 80 | 79 | 99 |
| Junior/Senior Combined |  |  |  |
| Total | 135 | 134 | 99 |

Table 220. Schools with HIV infection policy that has addressed confidential counseling for HIV-infected students.

| Yes | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High School | 50 | 41 | 84 |
| Middle School | 78 | 66 | 84 |
| Junior/Senior Combined |  |  |  |
| Total | 132 | 111 | 84 |

Table 221. Schools with HIV infection policy that has addressed communication of the policy to students, school staff, and parents.

| Yes | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High School | 50 | 41 | 83 |
| Middle School | 77 | 65 | 83 |
| Junior/Senior Combined |  |  |  |
| Total | 131 | 110 | 83 |

Table 222. Schools with HIV infection policy that has addressed adequate training about HIV infection for school staff.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High School | 50 | 44 | 88 |
| Middle School | 79 | 72 | 90 |
| Junior/Senior Combined |  |  |  |
| Total | 133 | 120 | 89 |

Table 223. Schools with HIV infection policy that has addressed procedures for implementing the policy.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| High School | 50 | 47 | 95 |
| Middle School | 79 | 73 | 92 |
| Junior/Senior Combined |  |  |  |
| Total | 133 | 124 | 93 |

For schools that have adopted a written policy that protects the rights of students and/or staff with HIV infection or AIDS, the following aspects are included: attendance (88\%), discrimination protection (94\%), confidentiality for faculty and students (99\%), confidential counseling for students (84\%), worksite safety (99\%), training for school staff (89\%), and implementation procedures (93\%).

## Sun Safety Policies

Skin cancer is the most common kind of cancer in the United States and occurs more often than all other cancers combined. The lifetime risk of getting skin cancer is linked to sun exposure in childhood. A child's skin, particularly before the age of ten, is especially vulnerable to the harmful ultraviolet rays. School policies that reduce exposure to ultraviolet radiation (limiting time outdoors during 11:00 am - 1:00 pm) and encourage the use of sun safety protective measures during the school day (protective clothing, hats and sunglasses) when the UV rays are most prevalent provide protection for students and staff.

## Question 71. Does your school have a policy establishing sun safety guidelines for any of the following areas?

Table 224. Policy for sun safety education guidelines.

|  | Number | Response | Percent |
| :--- | ---: | ---: | ---: |
| Sun Safety Education for Students | 270 | 63 | 23.3 |
| Sun Safety Staff Development for <br> Teachers | 271 | 14 | 5.2 |
| Promote or Require the Use of <br> Protective Clothing | 272 | 63 | 23.2 |
| Encourage Use of Lip Balm or <br> Sunscreen | 271 | 123 | 45.4 |
| New Construction that included <br> Shade Areas | 265 | 27 | 10.2 |
| Other Areas | 239 | 16 | 6.7 |

Principals report limited sun safety education guidelines in their schools. Policies include guidelines for students (23.3\%) and teachers (5.2\%). The use of sunscreen ( $45.4 \%$ ) and the requirement or promotion of use of protective clothing ( $23.2 \%$ ) is cited by principals and new construction is noted to have sun safety education guidelines (10.2\%).

## Indoor Air Quality (IAQ) and Mold Growth Prevention

Studies have shown that poor indoor air quality (mold is a subset of IAQ) in schools can have a negative impact on the student's learning experience. Poor IAQ can also contribute to the aggravation of asthma and allergy like symptoms. It therefore seems prudent to implement proactive programs to better design schools, to evaluate the design of existing schools, to review the operation of building systems, and to assure the proper maintenance of these systems.

## Question 72. Does the heating and air-conditioning system keep the temperature and humidity at comfortable levels?

Table 225. Temperature and humidity are kept at appropriate levels by heating and air-conditioning system.

|  | Response | Percent |
| :--- | ---: | ---: |
| Yes | 172 | 63.9 |
| No | 97 | 36.1 |
| Total | 269 | 100.0 |

Sixty-three percent of principals report that the heating and air-conditioning system keeps the school temperature and humidity at comfortable levels.

## Medical Emergency Preparedness

A group of leading national organizations (including the American Heart Association, American Academy of Pediatrics, and the National Association of School Nurses) recently recommended that schools develop a medical emergency response plan for cardiac arrest and other life-threatening medical emergencies. The recommended elements of such a plan were 1) effective and efficient communication throughout the school campus, 2) coordinated and practiced response plan, 3) risk reduction, 4) training and equipment for first aid and CPR (cardiopulmonary resuscitation), and 5) implementation of a lay rescuer AED (automated external defibrillator) program in schools with an established need. The organizations also gave recommendations for how schools should implement an AED program, including the need to train likely rescuers in both CPR and AED use and the need to coordinate with the community's emergency medical system (EMS). During the last few years there has been growing interest in placing AEDs in North Carolina schools, but there has been no information on how many schools have implemented AED programs or how schools have implemented these programs.

## Question 73. Is there an Automated External Defibrillator (AED) present in your school?

Table 226. Schools with an AED.

|  | Response | Percent |
| :--- | ---: | ---: |
| Yes | 42 | 15.7 |
| No | 225 | 84.3 |
| Total | 267 | 100.0 |

Only 15.7\% of schools surveyed have an automated external defibrillator present.

## Question 74. How many faculty, staff, and students have been trained to use the AED(s)?

Table 227. Schools where faculty, staff, and students have been trained to use the AED(s).

|  | Response | Percent |
| :--- | ---: | ---: |
| None | 24 | 32.0 |
| $\mathbf{1 - 5}$ | 33 | 44.0 |
| $\mathbf{6 - 1 0}$ | 13 | 17.3 |
| $11-15$ | 1 | 1.3 |
| $\mathbf{1 6 - 2 0}$ | 1 | 1.3 |
| More than 20 | 3 | 4.0 |
| Total | 75 | 100.0 |

In 44\% of schools participating in this study, only one to five faculty, staff, or students have been trained to use the AED. Approximately one third of these schools report no person is trained to do so.

Question 75. Does your school have policies in place ensuring rapid activation of those trained to use the AED(s) in the case of a medical emergency?

Table 228. Schools with policies to ensure use of AED in an emergency.

|  | Response | Percent |
| :--- | ---: | ---: |
| Yes | 39 | 52.7 |
| No | 35 | 47.3 |
| Total | 74 | 100.0 |

Fifty-two percent of principals report that a policy exists to ensure the use of an AED in the event of an emergency.

Question 76. Does your school have policies in place ensuring the presence of AED(s) at school events (both off-site and on-site) such as football games?

Table 229. Policies to ensure the presence of $A E D(s)$ at school events.

|  | Response | Percent |
| :--- | ---: | ---: |
| Yes | 40 | 50.0 |
| No | 40 | 50.0 |
| Total | 80 | 100.0 |

Fifty percent of principals report that a policy exists to ensure the presence of an AED at on and off-site school events such as football games.

Question 77. Has your school notified the local Emergency Medical Services (EMS) or rescue squad that there is an AED present in your school?

Table 230. Schools that have notified the local EMS that an AED is present in the school.

|  | Response | Percent |
| :--- | ---: | ---: |
| Yes | 32 | 41.6 |
| No | 45 | 58.4 |
| Total | 77 | 100.0 |

Approximately $42 \%$ of principals report that they have notified the local EMS that an AED is present in their school.

Question 78. During the past 12 months, have faculty and staff at this school been offered CPR training?

Table 231. Schools that have offered CPR in the past 12 months.

|  | Response | Percent |
| :--- | ---: | ---: |
| Yes | 194 | 71.6 |
| No | 77 | 28.4 |
| Total | 271 | 100.0 |

Principals (71.6\%) report that CPR has been offered in their schools in the past twelve months.

## Question 79. How many faculty and staff are currently certified in CPR?

Table 232. Number of faculty and staff certified in CPR.

|  | Response | Percent |
| :--- | ---: | ---: |
| None | 2 | .7 |
| $1-5$ | 120 | 44.8 |
| $6-10$ | 102 | 38.1 |
| $11-15$ | 20 | 7.5 |
| $\mathbf{1 6 - 2 0}$ | 15 | 5.6 |
| More than 20 | 9 | 3.4 |
| Total | 268 | 100.0 |

Forty-four percent of principals report that between one and five members of their faculty and staff has CPR certification.

Question 80. Does your school have policies in place ensuring rapid activation of those certified in CPR in the case of a medical emergency?

Table 233. Schools with a policy to activate certified CPR staff in an emergency.

|  | Response | Percent |
| :--- | ---: | ---: |
| Yes | 228 | 85.1 |
| No | 40 | 14.9 |
| Total | 268 | 100.0 |

The majority of schools (85.1\%) have a policy to ensure rapid activation of certified CPR faculty and staff in the event of a medical emergency.
